

DuyDao

Graduated at Frankfurt University of Applied Sciences

PERSONAL DETAILS

<i>Birth</i>	June 28, 1996
<i>Address</i>	1/16, Duong so 6, Go Vap, Hochiminh City, Vietnam
<i>Phone</i>	(+84) 944 66 33 44
<i>Mail</i>	daothanhduy305@gmail.com
<i>Website</i>	https://daothanhduy305.github.io/

EDUCATION

2014–Now

BSc. Computer Science

Frankfurt University of Applied Sciences (FRA-UAS)

Vietnamese – German University (VGU)

I was technically a student at Frankfurt University of Applied Science (FRA-UAS) and Vietnamese – German University (VGU), according to the co-operation between the two Universities and governments.

Up-to-date GPA: 1.5 (German scale) / 8.8 (Vietnamese scale)

PROJECTS

2018

KRichEditor

<https://github.com/daothanhduy305/KRichEditor>

This project is an open-source text editor Android library written in Kotlin programming language. More precisely, this would be a bridge between a well-established text editor library written in Javascript named QuillJs and Android API. The user interface is based on another project named “MRichEditor”.

2016

2048

<https://github.com/daothanhduy305/2048>

2048 once was a very popular game played on million mobile devices. During my second year in university, I did a project of writing this famous “2048” in JavaFX framework from scratch. This project is open-source and for researching, studying, only.

WORK EXPERIENCE

2018–now

Full-stack developer

Orange Logic

- Responsibilities
 - Develop and maintain its flagship Digital Asset Management product names Cortex with self-developed framework based on ASP.NET technology.
